

## Strategic Technology Advisory & Cloud Transformation

Cirrystack delivers comprehensive enterprise technology advisory services and implementation expertise for organizations pursuing strategic transformation, M&A initiatives, and cloud modernization. Our proven methodologies and frameworks, developed through extensive experience with AWS and Fortune 500 engagements, enable confident technology decisions and successful outcomes.

### Core Competencies

#### Strategic Technology Advisory

- Enterprise architecture assessment and optimization
- Technical due diligence for M&A transactions
- Cloud Center of Excellence establishment
- Technology governance framework development
- DevSecOps transformation strategy and execution
- Cloud migration and modernization planning

#### Implementation Excellence

- Cloud-native solution architecture and development
- Infrastructure automation and optimization
- Security posture enhancement and compliance
- CI/CD pipeline modernization
- Platform engineering and DevOps enablement
- Application modernization and cloud migration

#### Enterprise Transformation

- Digital transformation strategy and execution
- Organizational change management
- Technology stack optimization
- Technical debt remediation
- Cloud cost optimization

#### **Amy Beacom**

Portfolio Management Officer

[www.cirrustack.io](http://www.cirrustack.io)

- Security and compliance framework implementation

### Past Performance

- Reduced annual cloud infrastructure costs by \$4.2M for global streaming platform
- Accelerated deployment cycles by 65% for Fortune 500 clients
- Identified \$2M+ in infrastructure consolidation opportunities through M&A technical integration
- Decreased vulnerability exposure by 70% through automated security controls
- Reduced typical cloud migration timelines by 40% through proprietary frameworks

### Differentiators

#### Deep Enterprise Experience

- Led by former AWS and Fortune 500 technology executives
- Proven track record of multi-million dollar cost optimizations
- Extensive experience in regulated industries including healthcare and finance
- Demonstrated success in both commercial and federal markets

#### Comprehensive Methodology

- Holistic assessment approach covering technical, operational, and organizational aspects
- Established frameworks for risk evaluation and transformation planning
- Proven methodologies for accelerating cloud adoption and optimization
- Data-driven decision making supported by industry best practices

#### Federal Access

- Service Disabled Veteran-Owned Small Business (SDVOSB)
- Deep understanding of federal compliance requirements
- Experience navigating complex regulatory environments
